

## SYSTEM PROJECT

**METEK (metal deck)**

**WINDSOR HOTEL London Road, Windsor**

# Case History

Typical room before screeding

All the floors would in the Metec system.  
600 square metres laid in a single pour over a  
4 hour period.

Showing corridor with rooms leading off

Gyvlon poured into the whole floor (including  
rooms) in a single pour, facilitating large areas  
done at once with little disruption to site

Checking the levels

Using a laser and staff to check the required  
level against the datum.
