

SYSTEM

Insitu Concrete Slab. 50mm Gyvlon on Rockwool Insulation, Incorporating electrical underfloor heating

PROJECT

Refurbishment of an old Mill into luxury apartments at Stalybridge, Greater Manchester

Developer: Urban Splash

Conversion of disused mill into luxury apartments.

Urban Splash have used Gyvlon on a number of projects.

Speed of application.

This truck contains enough Gyvlon to cover 140 mm² at 50 mm thick.

The Gyvlon screed is easily pumped into upper floors of this development.

Preparation showing electrical underfloor heating elements in place. 50 mm Gyvlon screed over Rockwool insulation. Designed to maximise the effectiveness of the under floor heating, whilst complying with the part E building regulations.

Screed is easily placed and dappled to an SR2 finish.

6 luxury apartments screeded in a little over half a day!
